Session Audit & Regulatory Report

Service: **agent_mesh_cli** | Environment: **development** | Generated: 2026-09-14 11:07:55 UTC

Session ID	(whole run)	**Turns**	0
User / Role	[] / —	**Guardrail triggers**	0
Start	—	**Compliance events**	0
End	—	**Errors**	0
Duration	0.0 s	**Scoping**	time_window

Compliance Chain Attestation

Tamper-evidence check over the full audit chain: **N/A** (0 chained events). First hash –, last hash –.

Session Flow (start → end)

No spans found for this session.

Decision Log (compliance, guardrail & access events)

Time	Type	Detail	Outcome/Action	Trace
—	—	no compliance events in session	—	—

Usage Summary

LLM tokens	0	**Est. cost**	0.0
Call count	0	**Avg latency**	0.0 ms
p95 latency	0.0 ms		

Report scoped by ±10-minute time window (no session_id attribute found in spans). Metrics are time-window scoped (no per-trace id). Payloads are never stored — only SHA-256 hashes (privacy by design). Generated by beacon_kit audit_report.
